COLLECTIVIZATION CONTINUE

COOPERATIVES INCREASE IN THE KOMMET ... Borbs, No 156, 3 Jul 49

Pristing ... Farly Jovicevic, secretary of the Executive Council of the Oblast People's Council of Kosovo and Metohija, amounced that while the Kosmet at the end of 1948 had only 42 farm workers' cooperatives, with a membership of 2,813 families and 13,542 hectares of land, there are now 176 farm workers' cooperatives, with a membership of 7,131 families and 35,556 hectares of arab e lend, or 13.6 percent of the total cultivable erea in the oblast. All the farm workers' cooperatives completed their planting on schedule.

Although the plan for forest exploitation was not fulfilled because of a shortage of tools, transport facilities, and draft animals, and because of bad weather, very good results were achieved in reforestation and forest reclamation, tasks performed mainly by volunteers from the People's Front. Resulta did not meet expectations in construction because of a shortage of materials and transport equipment, and because of failure to use skilled labor on projects of highest priority and to adopt more efficient methods of mason y and plastering.

The goods turnover plan, for the first half of 1949, was 12.2 percent fulfilled by the end of May. The monthly plans for labor recruiting were fulfilled both in respect to number of hirings and branches of industry. The greatest number of new workers were hired by mining enterprises.

The budget, for revenue, for the Airst half of 1949 had been fulfilled 84 percent by the end of June.

STATE FARMS SHOW CANATER YIELDS -- Rad, No 170, 19 Jel 43

Cetinje -- The area of state forms in Montenegro has increased 500 percent since 1947. Although the state sector is very smell, in comparison with the total arable area, much larger crops are harvested on state than on privately owned farms. Whereas wheat yield is from 6 to 8 metric centners per hectare on private farms, state farms harvest 8 to 10 metric centaers. Cows on stat. Carms give 1,000 to 1,200 liters of milk per day, as compared with a maximum of 700 liters on private farms

This year stock-reising on Montegogram to the cont over last year, while the purchase of the sale restaurant the adoption of scientific methods of raising these bary in the sale of the s

Capital construction on these farms will be 155 person construction

New reclamation projects in the Skadar Basin, and elberhaus, will prove the area of state farmland to more than one quarter of the total armic arm in Montenegro.

STAT

FORESTRY PLAN NOT FULFILLED -- Rad, No 169, 18 Jul 49

The forestry plan for the first half of 1949 was not fulfilled in the case of log transport, felling, railroad ties, mine timbers, beech wood (for export), and assortment. However, all the necessary conditions exist for making up the discrepancies and fulfilling the plan for the end of the year.

TRANSPORT IN SLOVENIAN FORESTS DMPROVED -- Red, No 164, 12 Jul 49

During the first half of this year, 42 kilometers of forest roads had been built in Slovenia, and at least another 60 kilometers will have been built by the end of the year, with the aid of 1,500 volunteers belonging to the Perple's Front. Forest roads will be built in the Kocevja, Brezice, Ribnica, Celje, and Eled forest districts.

Whereas 3 years ago only two repeways were in operation in Slovenian forests, now there are 35. Of these, 17 with a total lenth of 25 kilometers, were erected this year. Six were built at the Celje forest enterprise, five at Maribor, and four at Kranj. In addition, farm workers' cooperatives have erected five repeways, with a total length of 11 kilometers, this year. During the remainder of 1949, new repeways will be built for the forest enterprises in Slovengradec, Ribnica, Maribor, and Bled. The repeways will be operated on two shifts to expedite the transport of wood even more.

MODERN SAWMILL OPENED IN BOSNIA -- Red, No 181, 1 Aug 49

On 26 July the "Una" wood industry enterprise in Bosanska Krupa opened a new sawmill, one of the most modern in Yugoslavia.
